**Director of Engineering, Communications Technologies**

Apple · Full-time

Jan 2002 – Dec 2008 · 7 yrs

Cupertino, CA

Directed a team of nearly 100 software, hardware, embedded firmware and QA engineers responsible for developing the communications and data networking technologies deployed in all Macintosh computers as well as the AirPort Base Station Wi-Fi Access Point product line.

[...see more](#)**AirPort****Sr. Engineering Manager, Wireless Communications & Networking Division**

Agere System Inc · Full-time

Jan 2001 – Jan 2002 · 1 yr 1 mo

Herndon, VA

Built the team responsible for the specification, design, implementation, integration, and testing of a variety of Wi-Fi (802.11) products including wireless client software for Linux, Macintosh, and Windows as well as embedded Wi-Fi access point products covering Enterprise, Secure Enterprise, and Small Office Home Office (SOHO) market spaces.

[...see more](#)**WaveLAN****Engineering Manager, Wireless Communications & Networking Division**

Lucent Technologies · Full-time

Jun 1999 – Jan 2001 · 1 yr 8 mos

Herndon, VA

One of the people responsible for Apple's market-defining first generation AirPort base station product after leading the development of the world's first modern wireless home router, the Lucent BG-2000. Lead a team of software engineers and a team of QA engineers who designed and implemented wireless client software solutions for the WaveLAN and Orinoco line of 802 ...see more

**AirPort****BG-2000 A4****Senior Software Engineer**

Ascend Communications · Full-time

Mar 1997 – Jun 1999 · 2 yrs 4 mos

Herndon, VA

Worked on the design and implementation of embedded data networking software solutions at Ascend and eventually was promoted to manager of my team. Team wrote low level embedded networking software technologies for products like the Ascend Max 6000 dial-up concentrator as well as the TNT and PPPoE concentrator devices and Pipeline broadband modems. Also ...see more

**Senior Software Engineer**

Intercon · Full-time

Oct 1992 – Mar 1997 · 4 yrs 6 mos

Herndon, VA

Responsible for specification, design, implementation, and testing of IETF standards-based TCP/IP client software for Macintosh and Windows platforms. Shipped over a dozen commercially successful networking software products including AOL's first web browser for the Macintosh, TCP/Connect, NFS/Share, Networker, InterPrint, InterPPP and InterSLIP among others. ...see more

InterCon Systems
Corporation**Network Engineer/Software Engineer**

Falcon Microsystems

1990 – 1992 · 2 yrs

Was in two different roles at this company which was the largest VAR of Apple equipment to the US federal government. As a network design engineer I helped customers design the local, metropolitan and wide area networks for their facilities. As a software engineer I worked on internal software systems for the company to run on their Macintosh computers to aid in sales m ...see more

**Matt Smith**Wireless Communications
ProfessionalFebruary 8, 2015, Matt reported
directly to Philip

I first met Phil many years ago during a 4am Wi-Fi debugging session on Apple campus. Phil was there throughout to ensure the problem was resolved, but also provided some much needed levity during a stressful stop-ship situation. I was so impressed with Phil's

Gary Brotman

Vice President of Product & Marketing at Secondmind

February 4, 2015, Philip worked with Gary in the same group

I had the distinct pleasure of working with Phil at Qualcomm on a groundbreaking wireless whole home audio platform. Phil's vision, which became a reality in the form of the Qualcomm AllPlay Smart Media Platform, was to create a turnkey solution that not only solved a wireless audio distribution problem the broad ...
